Final Project Demonstration

This questionnaire is a tool to evaluate final senior design project **Demonstration** presented by students at SSU to assess their quality and complexity. Two evaluators must complete the project demonstration evolution. This form must be completed prior to the final project presentation.

Name of the students: _____

Title of the Project: _____

Evaluator 1: _____Date: _____

Evaluator 2: _____Date: _____

Parameters to consider for grading - Use 0 if the parameter does not apply):	Evaluator 1 (1-5=Best)	Evaluator 2 (1-5=Best)*
1. The working prototype reflects the original plan and over 95 percept of engineering and marketing requirements have been tested and verified		
2. Compactness of the project, overall packaging, and its neatness		
3. Ease of demonstration and readiness		
4. Repeatability of the demonstration		
5. Knowledge of the team about potential issues with the working prototype		
6. Knowledge of the team about how the system operates & its limitations		
7. Overall quality of the demostration		
TOTAL (out of 35)		

Is there any part/function/feature that must be completed/added prior to receiving the final grade?
