

Demonstration Evaluation Form

This form is a tool to evaluate the progress of the senior design project. The faculty advisor must complete this form. The team must **demonstrate** the working project to the faculty. **No videos please!**

Name of the students: _____

Title of the Project: _____

Faculty Advisor: _____ Date _____

Please provide your feedback regarding the following:

1. Is the project on track and does it reflect the original plan?
2. How do you describe the overall progress of the project compared to the last demonstration?
3. How do you describe the dynamics of the team? Is everyone in the team working together and contributing equally?
4. Are all the major components of the end-to-end system functional and is the team demonstrating an end-to-end system?
5. Can the team clearly describe the status of the project and what must to be done next in order to complete the project?
6. Is the demonstration repeatable?
7. Did you check the team's **web page**? Are the documents on the web page up-to-date?
8. Did you check the test results? Do you have any feedback for the team regarding their test results and what must be tested?
9. Do you have any other recommendations regarding the progress of the project for the students (use the back side if needed)?
